

NANAWALL SL60B AND WA67B

Folding Glass Walls Designed for Builders

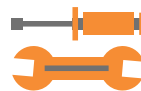

SL60B and WA67B are folding glass walls designed to fit the needs of builders—at set pricing. SL60B is an aluminum framed system and WA67B is an aluminum clad wood framed system. SL60B is \$2,100 per panel and WA67B is \$2,400 per panel—without sacrificing the quality, performance, and brand recognition of NanaWall. Transparent pricing allows easy project budgeting—flexible opening sizes from 6' through 15' wide and heights up to 8' 2". Both offer short lead times, providing builders with premium product differentiation for their clients.

NANAWALL TECHNOLOGY

SL60B system weight rides on the floor track, eliminating the need for costly header modifications. WA67B features a back ventilated rain screen technique to protect and isolate the wood from moisture.

OPTIONAL SCREEN AVAILABLE IN MATCHING PROFILE COLORS

INSTALLATION

We offer a nationwide network of NanaWall Certified Installers and a dedicated installation support line.

NanaWall SL60B and WA67B—Folding Glass Walls Designed for Builders

If your project requires customization beyond what the SL60B and WA67B offers (greater widths, taller heights, inward opening panels, sill or color choices, etc.), NanaWall offers a complete range of customizable folding glass wall systems in Aluminum, Wood, Aluminum Clad, and Frameless profiles that can meet almost any requirement.

To see the complete range, visit: nanawall.com/folding-glass-walls

THE ONE AND ONLY NANAWALL

NanaWall has reinvented the category of opening glass wall systems. Throughout our 30-plus-year history, we have earned the trust of architects, builders and contractors. As a solutions provider, we reimagine the ways in which buildings, people and the elements interact.
